#### **Market Environment**

Market Trends and Forecasts

While HKG is the only outbound provider with diverse range of destinations, it is increasingly finding itself in competition with pathway (school completion) program providers as market demand has been shifting their way. Regarding hosting, HKG is still the only non-fee paying provider in the market, yet with the change in local curriculum it can only accept younger students (15 to 16 year olds) which is a notable constraint on the sending Partners.
